Director's Message

The domain of art is ever fascinating. People come to this field with the aspiration of attaining money, fame and self-satisfaction. This can be made possible only through excellent knowledge of art. Because it is only through knowledge that the genius have been able to prove themselves. This especially applies to areas that are performance related, like music, dance sports or painting. Excellent performance in such fields is not dependent on degrees, but on right knowledge and right knowledge can come only through a good teacher or a guru. This has been the rule of the world since eternity.

GIFA Art College was established by Mr. Gagan Singh in 2019. It aims at providing inspiring guidance, techniques and approaches in various mediums to amateur artists. It facilitates a platform for established as well as amateur artists, to mark their presence in the field of art.

Since its inception it has been opening new horizons in the field of art. It has been successfully conducting exhibitions, workshops, painting competitions and Participating in Gita Jayanti International Mahotsav etc. to encourage and exhibit hidden and unexplored talent. Since its establishment, GIFA Art College has groomed raw artistic skills into astral talent.

Our competent panel of teachers leave no stone unturned to help each student achieve his true potential. Professionalism is inculcated in students by our esteemed facility.

We proudly present ourselves in INDIA offering 50 course art and craft techniques. We truly hope you achieve your artistic triumph and excellence.

Gagan Singh
Managing Director

About Institute

GIFA A Art College is a platform to engrave the hidden talents and feelings of students on the canvas of society. We bring out the aesthetic vision and inner soul, i.e, the principles of governing the nature and appreciation of beauty all around us. We enable students to use their skill and imagination in creation of aesthetic objects, environment and purposeful objects to benefit the present generation and coming generations.

We in GIFA aimed to design different courses to portray the feelings, emotions and vision of students as required by the necessity of life and eventually turn hobby to perfection. We will enable them to depict society in different forms of art as they view it.

As we all know, the existence of any society, its culture, its beliefs and its civilization can be predicted by viewing the different forms of art of that particular era. Art reflects the soul of a society. Sometimes, through art we can share our view about society and the world as a whole. Art of a particular society makes us understand the professions, the dressing habits, the eating habits, sources of amusement and flora and fauna of that era. Through art, we can spread the messages which may be social, education, environmental, political or of brotherhood for the benefit of nature and living beings.
